APRN PRESCRIBING Rule 4723-9-10 OAC

Is the drug a controlled substance?

NO

YES

May prescribe

Is drug C-II?

YES

NO

Will C-II be issued from allowed location or through a hospice program (Section 4723.481 ORC)?

YES

NO

Is the drug for acute pain as defined in 4723-9-10 (A)(1), OAC, and not for treatment of opioid addiction/detoxification?

YES

NO

Is prescription for inpatient use, or is patient: (a) in hospice program; (b) receiving palliative care; (c) in a terminal condition as defined in 2133.01 ORC; or (d) being treated for cancer or associated condition?

YES

NO

STOP do not prescribe

Does patient have a terminal condition as defined in Section 2133.01 ORC, and has a physician previously issued C-II to patient?

NO

YES

May issue up to 72 hour supply of C-II

If non-opioid treatment options have been ruled out, then presumption is 3-day or less supply is sufficient, but may prescribe up to 7 days (adults), 5 days (minors) with no refills and not more than an average of 30 MED per day. 30 MED may be exceeded only if Rule 4723-9-10(J)(3)(c) requirements are met.
