Momentum reaches every Nurse and Dialysis Technician, every Hospital and Nursing School Administrator in the State of Ohio. Over 210,000 copies are addressed and mailed statewide. Estimated readership is well over 540,000 with each issue.

Board members each serve a four-year term and may serve a second four-year term if reappointed. The terms of the thirteen Board members are staggered to provide continuity of Board activities. This year we welcome two members beginning new terms with the Board.

Anne Barnett, BSN, RNC is serving her second term on the Ohio Board of Nursing. She was reappointed by Governor Bob Taft prior to leaving office.

Anne completed her nursing education in 1970 at the Good Samaritan School of Nursing in Zanesville, Ohio. She continued her education at Ohio University completing her baccalaureate degree in nursing in 1994.

Anne began her nursing career as a charge nurse in a specialty surgical unit of Good Samaritan Hospital. In this role, she performed a variety of functions including medication administration, medical treatments, patient assessments and patient care planning. After several years, she shifted her focus to home care. Anne served as a Home Care Case Manager where she managed a caseload of between 25 and 30 patients. This position required coordination of services from a variety of disciplines.

After 20 years of providing direct patient care, Anne assumed the position of Home Care Patient Care Coordinator/Manager. In this role, she was responsible for the management of the main office and several

Cynthia A. Krueger
RN, MSN
Board President

branch offices. She was also responsible for the review and development of policies and procedures for patient care, quality improvement and risk management, financial matters, and hiring and evaluation of staff.

For the last eight years, Anne has been the Wound Management Center Manager for Genesis Health Care / Good Samaritan Medical Center in Zanesville, Ohio. In this role, she has been responsible for all aspects of Center management and the development of new programs.

Anne has been active with the Ohio Council of Home Care. Through the years she has served on its Compliance and Reimbursement Committee, Ethics Committee, CQI Teams, and Strategic Planning Committee. She is also a member of Sigma Theta Tau, Gamma Pi Delta.

In addition, Anne has served as a Board member of the Perry County Health Department and as a trustee for the Southeast District of the Ohio Association of Boards of Health.

Eric Yoon, RN, MSN, ACNP, CCNS is serving his first term with the Board. He was also appointed by Governor Bob Taft prior to leaving office.

THE TERMS OF THE THIRTEEN BOARD MEMBERS ARE STAGGERED TO PROVIDE CONTINUITY OF BOARD ACTIVITIES. THIS YEAR WE WELCOME TWO MEMBERS BEGINNING NEW TERMS WITH THE BOARD.

Eric completed his nursing education at Wright State University in Dayton, Ohio in 1997. He continued his education at the University of Cincinnati College of Nursing, Cincinnati, Ohio where he obtained his Masters degree in Nursing with a major in critical care and trauma in 1999. Eric is currently pursuing a Doctorate in Public Health through Lacrosse University, St. Louis, MS.

Eric began his career as an emergency/trauma nurse at Miami Valley Hospital in Dayton, Ohio. He also worked for a period of time as a travel nurse. In 2001, Eric obtained a

position with Internal Medicine Care in Beavercreek, Ohio as an Acute Care Nurse Practitioner. While in this role, he was responsible for providing general medical care and treatment to patients at Cassano's Health Center, Grandview Hospitals, Southview Hospital, the private office, and several nursing homes. Currently, he is working as a nurse practitioner in primary care with Internal Medicine Care, Clayton, Ohio. Eric has continued with his emergency nurse background working part-time at Lima Memorial Hospital Emergency Room as a Nurse Practitioner.

Eric is a member of the Association of Clinicians for the Underserved, the National Health Services Corp, Sigma Theta Tau, Ohio Association of Advanced Practice Nurses, American College of Nurse Practitioners, and the Ohio Nurses Association. He holds a certificate to prescribe in the State of Ohio. Eric will be representing the Board on the Committee for Prescriptive Governance.

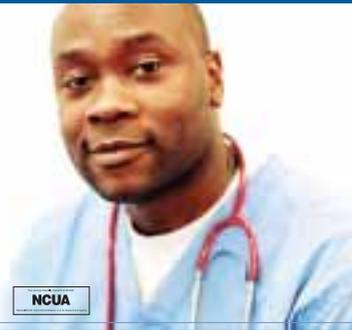

I welcome both Anne and Eric to the Board and look forward to working with them as we promote the nursing profession. ■

Yours truly,

Cynthia A. Krueger

Cynthia Krueger, RN, MSN
Board President

Financial care for healthcare

If you work in healthcare, you can work with Ohio HealthCare Federal Credit Union.

In addition to checking and savings accounts, and auto, home and consumer loans, you need convenience. So, we offer free online banking and bill payment, an extensive surcharge-free ATM network, two branches of our own, and a network of more than 30 shared branches in Central Ohio.

Attention Future Nursing Faculty Members!!

Who

Current registered nurses who would like to become nursing faculty members in Ohio.

What

Five dollars of the licensure

renewal fee paid by every Ohio nurse is transferred to the Nurse Education Assistance Loan Fund. This program is administered by the Ohio Board of Regents, with assistance from the Ohio Board of

Nursing.

In addition to pre-licensure students, the Nurse Education Assistance Loan Program now makes loans to eligible applicants pursuing post-licensure education to become nursing faculty members.

When

Beginning January 1, 2007 for students who intend to start nursing education programs in the fall. The deadline for completed applications is June 1, 2007. You may also apply between June 2, 2007 and November 1, 2007 for new nurse education programs that begin on or after January 1, 2008.

Where

Please visit www.regents.ohio.gov/sgs/nealp and select "for future instructors" for more information.

Why

Awardees can receive at least \$5,000 per year, provided the applicant submits a letter of intent to work in the state of Ohio after graduation as a nursing faculty member. The principle and interest of the loans may be forgiven at a rate of 25% of the loan amount for each year the awardee works as a faculty member at an approved nursing education program in the state.

How

Complete a 2007-08 Free Application for Federal Student Aid (FAFSA) and visit the Nursing Education Assistance Loan Program website to apply online. While financial need is used to rank eligible applicants, if sufficient funds are available, loans will be awarded to all eligible applicants. ■

OhioHealth named one of FORTUNE's "100 Best Companies to Work For" in 2007.

Ranked #52, OhioHealth is one of only two large healthcare systems in the country to receive this honor. We could not have done it without our dedicated staff. Working together for the greater good. That is a team effort. That is OhioHealth.

At OhioHealth, you will find that we are making a difference. Together, inclusion and equal opportunity make us great. Learn more about our system-wide opportunities for Nurses at ohiohealth.com/jobs.

Together we are a faith-based, not-for-profit family of leading healthcare providers.

Peripherally Inserted Central Catheters PICC Line FAQs

Frequently the Board of Nursing receives questions pertaining to peripherally inserted central catheters or PICC lines. The following questions represent the majority of those questions. When responding to practice questions, the “Scope of Practice Decision Making Model” provides the tool to determine the legality, competency, safety and accountability of a given activity or task. The Model can be found at our website, www.nursing.ohio.gov, under the “Publications” link.

Question 1: “I am unable to find specific rules regarding RNs inserting PICC or mid-line catheters.”

A Registered Nurse may perform nursing care that is beyond basic nursing preparation if certain criteria are met. Chapter 4723-4-03 (D), OAC discusses nursing care that an RN can provide that is beyond basic RN preparation. The RN should:

1. Obtain appropriate education from a recognized body of knowl-

edge relative to the nursing care to be provided. For example, a PICC line certification course from a reputable source may serve as the appropriate education from a recognized body of knowledge.

2. Be able to demonstrate the appropriate knowledge, skills and abilities. Using the above example, a PICC line certification course may provide the didactic (lecture) component of gaining knowledge, “hands-on” skill acquisition through practice on “IV arms”, and finally a preceptor component requiring a specified number of supervised PICC insertions.
3. Maintain documentation of competency. Keeping a record of how many PICC lines the registered nurse inserted, how many were successfully completed, further periodic, supervised PICC insertions, and tracking continuing education are examples of competency documentation.
4. Have an order in accordance

with Section 4723.01(B)(5), ORC, to perform this care by an authorized individual acting within the course of the individual's professional practice.

5. Ensure that the nursing care does not involve a function or procedure prohibited by any other law or rule.

When these criteria are met, then the registered nurse should ask, “Is this activity or task safe and appropriate to perform with this patient/client at this time?” If the answer is “yes” then the nurse may perform the PICC line insertion according to acceptable and prevailing standards of safe nursing care.

Question 2: “Does a nurse have to be PICC certified to remove a PICC line?”

Again, this question raises the issue of nursing care that is beyond basic nursing preparation. Rule 4723-4-03(D), OAC applies here as well. The registered nurse should obtain the appropriate education

change the outcome®

Help bring the world the joy of healthier kids.

Every day, nurses at Cincinnati Children's Hospital Medical Center perform small miracles by lifting spirits and touching lives. They help change the outcome for our young patients and offer them a future of hope and possibility.

Inspired by the courage of our patients, we never stop working to improve care. Cincinnati Children's was recently ranked among the top five children's hospitals by *Child* magazine. And in 2006, we became the first pediatric hospital in the nation to win the American Hospital Association – McKesson Quest for Quality Prize for leadership and innovation in quality, safety and commitment to patient care. Our family-centered, state-of-the-art medical center setting offers:

- Endless career possibilities
- Leadership and specialty training
- Continuing education and development
- Opportunities to participate in translational research
- Shared governance
- RN residency
- Nursing Advancement Program
- Support throughout every stage of your career

If you're passionate about pediatric nursing, you'll be glad you chose a career with Cincinnati Children's.

We offer an attractive salary and benefits package, exciting challenges and a team environment. For more information, please contact our Nursing Recruitment & Retention Team at 1-877-636-0219 or email nurses4kids@cchmc.org. EOE

www.cincinnatichildrens.org

CONTINUED FROM PAGE 8

from a recognized body of knowledge, be able to demonstrate the appropriate knowledge, skills and abilities, maintain competency documentation, have an order, and ensure that the nursing care does not involve a function or procedure prohibited by any other law or rule. Finally, the registered nurse should ask, "Is this activity or task safe and appropriate to perform with this patient/client at this time?" If the answer is "yes" then the nurse may perform the PICC line removal according to acceptable and prevailing standards of safe nursing care and prepare to accept accountability for the nursing actions.

Question 3: "Can an LPN infuse an IV antibiotic through a PICC line?"

Qualified licensed practical nurses are authorized by the board to perform intravenous therapy procedures, for individuals 18 years old or older, if directed by a physician, APN or RN. A licensed practical nurse so designated may only administer the following intravenous fluids through a central venous line or peripherally inserted central catheter (PICC) and only when directed to do so by a physician, APN, or RN: dextrose 5%, normal saline, lactated ringers, sodium chloride 0.45%, sodium chloride 0.2% or sterile water; or subsequent containers of the aforementioned solutions containing vitamins or electrolytes provided an RN initiated the infusion of that same intravenous solution, Rule 4723-17-03, OAC. The regulations permit LPN's to administer intravenous antibiotics ONLY through a peripheral infusion.

It is outside the scope of practice of the licensed practical nurse to insert or remove a PICC line, Section 4723.17(D)(4), ORC. ■

REALIZE THE DREAM. On a Higher Level.

**Mount Carmel College of Nursing
The Master of Science Program in Adult Health and Nursing Education**

As a professional registered nurse, you may dream of taking your calling to greater heights. The Master's Degree at Mount Carmel offers a dual specialty in Adult Health and Nursing Education that will prepare you for increased opportunity in today's dynamic healthcare environment.

Your Destination for Nursing Practice

Customized Nursing Careers

Cleveland Clinic nurses can customize careers in many areas, including:

- Advanced Practice Nursing
- Ambulatory Nursing
- Cancer Center and Center for Rehabilitation
- Children's Hospital
- Emergency Department and Critical Care
- Heart and Vascular Institute
- Medicine and Behavioral Services
- Nursing Education and Professional Practice Development
- Nursing Informatics
- Nursing Quality Management
- Nursing Research and Innovation
- Nursing World Class Service
- Surgical Acute Care
- Surgical Services

About Cleveland Clinic

- Ranked among the top 3 hospitals in the country
- Magnet hospital for nursing excellence
- 1,800 physicians and scientists
- 2.5 million outpatient visits, annually
- 65,000 surgical procedures, annually

Meeting the needs of both the experienced nurse and the new graduate, Cleveland Clinic offers the latest innovations, numerous ongoing educational programs and opportunities to participate in research projects and professional organizations.

Revolutionizing Nursing Practice | Nurses at Cleveland Clinic are piloting both traditional and technological products as well as new systems and processes that will improve patient care and make nursing flow more efficient.

Autonomy with Support | Cleveland Clinic physicians recognize that exceptional nursing care directly correlates with successful patient outcomes. At Cleveland Clinic, nurses are in charge of their practice because no one knows the patient better than the nurse providing care.

Evidence-Based Nursing | Nursing practice at Cleveland Clinic evolves to keep pace with changes in technology and medical practice. A commitment to monitor quality and update staff on changes in practice ensures optimal outcomes.

Shared Governance | At Cleveland Clinic, nurses and physicians collaborate, sharing ideas and knowledge resulting in improved patient outcomes.

Education and Professional Development | Cleveland Clinic offers a broad scope of educational programs geared towards all stages of a nurse's career.

Nursing Research | Cleveland Clinic nurses conduct research to find the most effective and safest ways to care for patients. Nurse researchers are available to mentor all aspects of the research, from defining the questions to publishing the findings.

The New Heart of Cleveland Clinic | Construction is under way for a new Heart and Vascular Institute facility at Cleveland Clinic. Scheduled to open in 2008, the new center will provide a comprehensive model of care where patient care, research and education are offered in one location.

For more information about nursing at Cleveland Clinic or to review employment opportunities, visit clevelandclinic.org/nursing. For consideration, please complete our online application at clevelandclinic.org/nursingjobs.

NCLEX-RN EXAMINATION PASSING STANDARD REVISED FOR PUBLIC SAFETY

The National Council of State Boards of Nursing (NCSBN) voted at its December 5-7, 2006, meeting to raise the passing standard for the NCLEX-RN examination, the National Council Licensure Examination for Registered Nurses.

The new passing standard is -0.2100 logits on the NCLEX-RN logistic scale, 0.070 logits higher than the previous standard of -0.2800. The new passing standard took effect on April 1, 2007, in conjunction with the 2007 NCLEX-RN Test Plan.

...THE NCSBN BOARD OF DIRECTORS EVALUATES THE PASSING STANDARD FOR THE NCLEX-RN EXAMINATION EVERY THREE YEARS...

After consideration of all available information, the NCSBN Board of Directors determined that safe and effective entry-level RN practice requires a greater level of knowledge, skills, and abilities that was required in 2004, when NCSBN established the current standard.

The passing standard was increased in response to changes in U.S. health care delivery and nursing practice that have resulted in the greater acuity of clients seen by entry-level RN's.

The Board of Directors used

multiple sources of information to guide its evaluation and discussion regarding the change in passing standard. As part of this process, NCSBN convened an expert panel of 11 nurses to perform a criterion-referenced standard setting procedure.

Board of Directors evaluates the passing standard for the NCLEX-RN examination every three years to protect the public by ensuring minimal competence for entry-level RN's.

NCSBN coordinates the passing standard analysis with the three-

The panel's findings supported the creation of a higher passing standard. NCSBN also considered the results of a national survey of nursing professionals including nursing educators, directors of nursing in acute care settings and administrators of long-term care facilities.

In accordance with a motion adopted by the 1989 NCSBN Delegate Assembly, the NCSBN

year cycle of test plan content evaluation, conducted using a practice analysis of entry-level RN's.

This three-year cycle was developed to keep the test content and passing standard current with entry-level practice. A PDF of the 2007 NCLEX-RN Test Plan is available free of charge from the NCSBN Web site (https://www.ncsbn.org/RN_Test_Plan_2007_Web.pdf).

Faith In Action

MAY IS FOR NURSES

National Nurses Week

May 6th through 12th

For all you do. We salute you!

I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician in his work and devote myself to the welfare of those committed to my care.

CLINICAL

NURSE

LEADER

A NEW MASTER'S CONCENTRATION IN NURSING

highly educated nurses, the need to attract and retain nurses in a time of substantial nursing shortage, the need for an expanded knowledge base for the practice of nursing, and the need to optimize the use of the advanced practice nurses like the CNS's and nurse practitioners in the health care setting. These concerns were identified by a variety of health professionals.

Complexity in the work environment in nursing has resulted in the inability to manage patient care effectively. Complexity issues are resultant of multitasks for nurses, increasing acuity of patients, and increased ratio of patients per nurse assignments.

In July 2002, as a result of these concerns, the American Association of Colleges of Nursing (AACN) formed the Task Force on Education and Regulation for Professional Nursing Practice (TFER) to consult with major team players in nursing such as nurse executives, nursing regulators, and nursing educators in an effort to formulate a resolution to these concerns.

The following outcomes were identified by TFER: a new nurse (CNL) would be prepared for clinical leadership in all settings, would implement evidence-based practice and quality improvement strategies, would create and manage Microsystems of unit-based health care that would be responsive to the health care needs of individuals, families, and communities. The CNL would be a generalist clinician with a unit-specific focus who would be educated at the master's degree level. Responsibilities of the new CNL would be to oversee the care coordination of patients and actively provide direct patient care in complex situations, serve as a resource for the entire nursing team, manage change at the unit level, and assure referrals are made for special needs of patients such as the need for services of clinical nurse specialists. Consequently, AACN proposed a new health care delivery system—the partnership model of health care that

The mission of the Ohio Board of Nursing is to actively safeguard the health of the public through the effective regulation of nursing care. Sharing the vision for safe effective nursing care, in Fall 2005, the College of Nursing and Health at Wright State University offered a new graduate degree in Nursing—the Clinical Nurse Leader (CNL). The purpose of this new, innovative MSN is eloquently detailed in the Vision Statement regarding the CNL by members of the American Association of Colleges of Nursing (June 2004, p. 1) that states “the clinical nurse leader will champion innovations that improve patient outcomes, ensure quality care and reduce health care costs. The CNL integrates emerging nursing science into practice and leads the effort to enhance patient care. A recognized leader in all settings, the CNL is an advocate for reforming the health care delivery system and putting best practices into action”.

Dramatic changes in the delivery of health care prompted many concerns about the quality of health care, the environment, the need for more

would be designed by the collaborative efforts of nursing education and nursing practice—as the key to making successful changes for high quality of patient care—including the initiation of the new CNL role.

In June 2004, AACN invited Partnerships (education and practice partners) to Washington, D. C. for formal presentations on the CNL initiative. Since that time, AACN has worked closely with practice and education

partners to develop a curriculum for the CNL, as well as the development of a new, improved health care delivery system.

Wright State University College of Nursing and Health (nursing education partner) has worked with nursing practice partners (Premier Health Care Partners—Miami Valley Hospital, Good Samaritan Hospital and Maria-Joseph Living Center to design the curriculum for the CNL

at WSU College of Nursing & Health. In May 2005, the Dayton VA Medical Center joined the education-practice team and eagerly sought out the knowledge to become an informed practice partner. The successful marriage of WSU College of Nursing and Health and the practice partners to proactively fulfill the need for quality of care in our community has culminated in the new CNL Master's degree program at WSU. The number of schools of Nursing now involved in the CNL initiative has risen to almost 90 with the number of clinical practice partners reaching in excess of 185—indicative of a national interest to improve the effectiveness of patient care.

The curriculum for the CNL consists of seven core courses required by all MSN students in the CoNH at WSU, 3 courses in the Nursing Administration tract, 4 courses in the clinical advanced practice tract, a clinical course in clinical outcomes, a clinical course in health care environment, and a final practicum involving 32 hrs/week for 10 weeks in the clinical setting with a clinical preceptor and a nursing faculty preceptor. The major thread of the curriculum is clinical leadership detailing lateral integration of patient care, interdisciplinary accountability, and clinical expertise. The CNL is not a nurse manager, a clinical specialist, or a case manager but a clinical leader who serves as an advocate for staff, patients, and family at the point-of-care. The CNL is at the bedside and is constantly performing a micro-system analysis of unit-based care to maintain safe, effective care in a safe, effective environment.

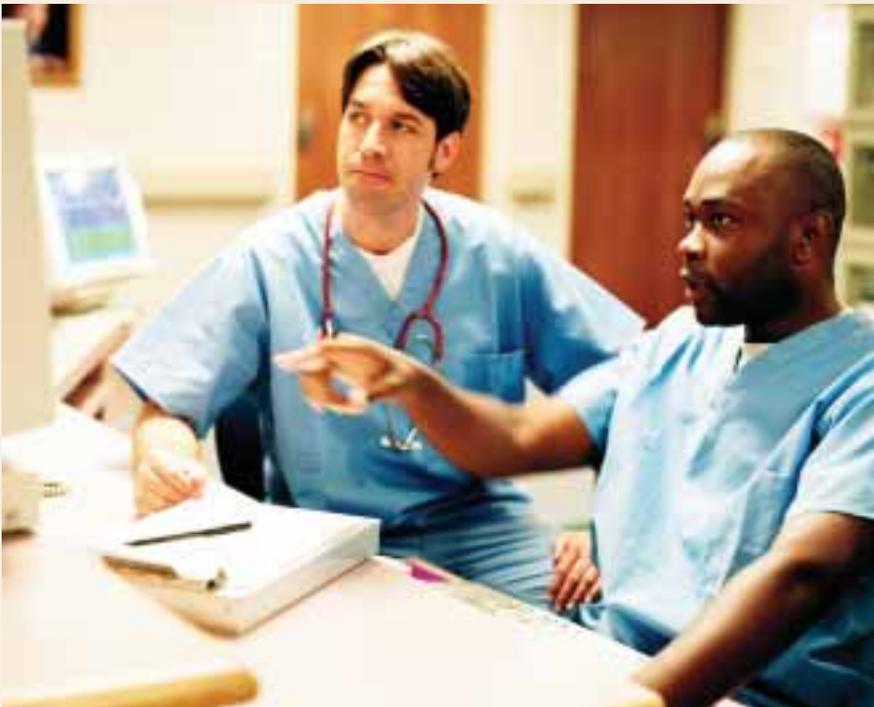

As one of the 37 'early adopters' of the CNL program, Wright State University was one the first colleges of nursing to graduate CNL graduates in November 2006. In November 2006, the CNL graduates at Wright State University were the first CNL graduates to take AACN's national certification exam to become certified CNLs. There are now 83 Certified CNLs in the United States. Like other CNL programs in the USA, who have graduated and certified CNL graduates, WSU, along with AACN, will begin the evaluation of the new role in nursing

The project represents an intense national collaborative effort by nursing practice and nursing education rarely witnessed in the history of nursing. Wright State University College of Nursing and Health have been fortunate to work with practice partners who bring the knowledge and efforts to make the CNL a successive endeavor in our community—they are truly the shapers of nursing history and partners with the Ohio Board of Nursing in the pursuit to safeguard the health of the community.

WRIGHT STATE
UNIVERSITY

RN and APN LICENSURE RENEWAL

**INCOMPLETE
APPLICATIONS
MAY RESULT IN
LATE OR LAPSED
FEE CHARGES,
AND DELAYS IN
RECEIVING
YOUR LICENSE.**

If you are a registered nurse or advanced practice nurse in Ohio, your license will expire on August 31, 2007. It is your responsibility, to remember to renew your license and if applicable, advanced practice nurse certificate of authority. Advanced practice nurses will receive one application for their registered nurse license and their certificate of authority. Renewal notices and applications will be mailed during the month of May to the address that the Board has on file. It is extremely important to notify the Board of any name and/or address changes immediately. An incorrect name and/or address will delay the renewal of your license. A form for making the change can be obtained on the board website at www.nursing.ohio.gov under FORMS.

You may choose to renew on-line or by mail. On-line

renewal was available for registered nurses for the first time in 2005. More than 10,000 individuals renewed on-line, and found this process to be fast and convenient. The Board strongly encourages you to use this renewal method. You will receive a renewal notice through the mail with instructions, a personal ID, and password to use for on-line renewal. When renewing on-line you can pay the required application fee using Master Card or VISA credit cards, or debit cards with a MC or VISA logo.

It is strongly recommended that you submit your application for renewal and fee as soon as you receive it. Incomplete applications may result in late or lapsed fee charges, and delays in receiving your license. Fees for renewal are as follows:

Before July 1, 2007
registered nurses - \$65
advanced practice nurses –
(1 COA - \$85)

July 1, 2007 through August 31,
2007 (processing late application
fee)
registered nurses - \$115
advanced practice nurses –
(1 COA - \$135)

After August 31, 2007
(renew a lapsed license)
registered nurses - \$165
advanced practice nurses –
(1 COA - \$185)

Certificate to prescribe renewals -
\$50 (no late or lapsed fees apply)

The Board audits thousands of nurses each year to determine compliance with continuing education requirements. If you were notified of an audit of your continuing education for the registered nurse licensing period of September 1, 2003 through August 31, 2005 and have not completed that audit by submitting the information required by the Board, you will not receive your renewal application for 2007-2009 until you complete the audit requirements.

Board staff are available to assist you in taking the necessary steps to renew your license/certificate of authority. If you have questions about the renewal process, please contact the Board at 614-466-0388 or by e-mail at renewal@nursing.ohio.gov, or if you are an advanced practice nurse, please contact us at apn@nursing.ohio.gov.

Prestige. Compassion. Excellence.

As we approach our 100-year anniversary at EMH Regional Healthcare System, we are both thankful and proud. Thankful for the trust and respect shown to us by members of our community. Proud to be a nationally ranked 100 Top Hospital and Northcoast 99 Top Employer. We believe that our integrity shines through in everything we do and is the foundation of our regional strength and national standing. Isn't that the kind of employer you'd like to have?

Registered Nurses

Full & Part-Time

We offer an attractive compensation/benefits package and the opportunity to collaborate with top professionals and to enrich and advance your career. Please visit our website and apply online at www.emh.jobs.

WHAT IS A DUPLICATE LICENSE?

A duplicate license is issued to replace a lost, destroyed, or stolen license.

To receive a duplicate license, complete the form *Affidavit of Lost Document*, and submit a \$25.00 replacement fee. The Board will issue a license with the designation "Replacement"

stamped across the top of the license. Once a duplicate is issued, the original wallet copy should not be used.

Each issue of Momentum lists those licenses for which a duplicate is issued during the months immediately preceding publication. ■

Teaching the nurses
of tomorrow is...

If you want to know more about making a difference through a career in nursing education, visit us online at: www.nursesource.org

Nursing. It's Real. It's Life.

Introducing the new UH.

At University Hospitals, we have embraced a new name, a new look, and an energized attitude. We are building upon our 140 year old commitment to deliver thoughtful, patient-centered care - and it's stronger than ever.

Whether you are just beginning your career or considering a serious move, you will find both challenge and fulfillment in a cutting-edge environment that puts people and patients first. We invite you to discover how you can be a part of a team that is united by healthcare and united by heart.

REGISTERED NURSES

- ICU • CCU - 12-hour shifts - 7p-7a • Med/Surg
- Telemetry • Orthopedics - 8-hour shifts - 3p-11p or 11p-7a

A current RN license to practice in the State of Ohio is required.

PRN CRITICAL CARE FLOAT POOL

72 hours per month, 1 winter and 1 summer holiday, 2 weekend shifts required. Must have at least 2 years recent critical care experience. Pay rate - \$41.20/hour.

OB/FAMILY SUITE CLINICAL MANAGER

A current RN license to practice in the State of Ohio, BSN, OB and Management experience required.

We offer an attractive compensation package. Please send resume to: **St. John West Shore Hospital, Attn: Nurse Recruiter, 29000 Center Ridge Rd., Westlake, OH 44145, Fax 440-827-5321, Email: jeanette.gregg@csauh.com.** St. John West Shore Hospital is an Equal Opportunity Employer

www.sjws.net

PAYMENT FAILURES

There is often a lag-time between the time a payment is processed by the bank and the time the Board receives notification of error or insufficient funds. Even though a renewed license may have been received in the mail, failure of a payment to clear the bank will cause an application to become incomplete. The purpose of publishing this list is to notify current and potential employers and to reach the individual when other avenues have failed.

Each person listed here has been notified by certified mail, using the last known address of record, and given 30 days (or more) to render proper payment to the Board. These applications, certificates, or licenses will not be considered complete until proper payment has been rendered. If payment is not received within 30 days after notice is provided, licensee information is turned over to the Compliance Unit and recommended for investigation. Individuals found to be working on a lapsed license may be subject to discipline.

Below is a list of those nurses and dialysis technicians whose renewal

applications, certificates, or duplicate licenses are incomplete due to payment failure related to insufficient funds. The licensee and certificate holders listed below failed to render payment by the date this publication went to press.

Learn About Ohio's Nurse Practice Act — and Earn CE Credit!

In cooperation with the Ohio Board of Nursing, the National Council of State Boards of Nursing (NCSBN) presents an exciting continuing education opportunity for nurses in Ohio to learn the state's Nurse Practice Act. This online course will provide you the opportunity to:

- Understand the history of licensure, the purpose of nursing regulation and the functions of the board of nursing
- Identify the powers and responsibilities of the board
- Examine the definition of licenses and the duties of licensees
- Recognize the disciplinary authority of the board and due-process procedures
- Distinguish between alternatives to discipline

For only \$12, you will receive three weeks of unlimited, 24-hour access to the course, earning 2.0 contact hours! Why wait? Register online today at NCSBN Learning Extension!

REGENCY HOSPITALS

Regency Hospitals are intensive critical care hospitals serving the needs of medically complex patients that require acute level care for a longer period of time than traditional hospitals are set up to provide.

What does this mean to you? It means our staff is able to take the time they need to care for patients, not just their condition. It means that we believe in a team where everyone works together to achieve success.

We are a different kind of hospital with a different kind of culture. And, it shows in everything we do. But don't take our word for it, call and see for yourself.

Regency Hospital of Akron, located in Barberton Citizens Hospital • 155 Fifth Street NE • Barberton, OH 44203 • 330.848.7723

Regency Hospital of Ravenna, located in Robinson Memorial Hospital • 6847 N. Chestnut St., 3rd Floor • Ravenna, OH 44266 • 330.615.3800

Regency Hospital Cleveland West • 6990 Engle Road • Middleburg Heights, OH 44130 • 440.202.4300

Regency Hospital of Cincinnati, located within Deaconess Hospital, 4th Floor • 311 Straight St. • Cincinnati, OH 45219 • 513.559.5959

Coming Soon: Toledo, *Spring 2007* • Cleveland East, *Summer 2007* • Columbus, *Fall 2007*

USE YOUR EXPERIENCE TO EDUCATE

USE YOUR EXPERTISE TO SHAPE

The skills that made you a good nurse can also make you a great teacher. We invite you to join the faculty of the Wright State University–Miami Valley College of Nursing and Health and put your nursing experience to work in the classroom. Help us prepare tomorrow's health care professionals and continue the tradition of quality nursing that you helped create.

Wright State University is hiring adjunct faculty with master's degree to teach:

- Mental Health Nursing
- Medical-Surgical Nursing
- Maternity
- Pediatrics

Adjunct professors enjoy flexible hours, allowing you to teach around your schedule.

Wright State University is also seeking tenure-track faculty with doctorates to teach undergraduate and graduate students. Priority areas are:

- Acute Care Nurse Practitioner
- Administration
- Mental Health Nursing

Which means there is an opportunity for you to grow, learn and succeed – join us!
