Great health care begins with great nurses.

TriHealth nurses play an important role in the assurance of high standards of care for our patients and their loved ones. They deliver coordinated, compassionate care that helps our patients live healthier, better lives.

We have outstanding career opportunities for nurses who want to join our team:

Clinical Nurse Leaders

Requires MSN, Clinical Nurse Leader Certification and 2 to 3 years professional nursing experience in an acute care setting. [Generous sign-on-bonus and relocation package.](#)

Cardiovascular ICU RNs

BSN and Critical Care experience preferred. [Night and evening shift bonus!](#)

Float Pool RNs

Requires 1 to 2 years recent/active acute care experience in specialty to be assigned. BSN preferred.

Emergency Department RN

Requires minimum one-year Emergency Department, Telemetry, Med/Surg or Critical Care experience. BSN preferred.

Join a team that makes a difference every day. To learn more about TriHealth and APPLY ONLINE, visit TriHealth.com.

Ohio Nursing *Momentum* is the official journal of the Ohio Board of Nursing. Nursing *Momentum's* traditional journal & interactive digital companion serve over 280,000 nurses, administrators, faculty and nursing students, 4 times a year all across Ohio. *Momentum* is a timely, widely read and respected voice in Ohio nursing regulation.

Judith Church,
DHA, MSN, RN
President

The Board continues to be an active participant in the Prescription Drug Abuse Action Group, the Ohio Prescription Drug Abuse Task Force, the Governor's Cabinet Opiate Action Team (GCOAT), the Governor's Law Enforcement Working Group, and most recently, the Governor's Reforming Prescribing Practices Committee and Metrics Subcommittee. The Governor, Ohio Legislature and the Ohio Attorney General have been focused on addressing public safety concerns associated with the inappropriate prescribing of opioids.

Through the Governor's Reforming Prescribing Practices Committee, the Board participated in meetings with health care licensing boards and stakeholders to develop prescribing guidelines for Ohio's clinicians. The Board recently approved the *Guidelines for Prescribing Opioids for the Treatment of Chronic Non-Terminal Pain 80 mg of a Morphine Equivalent Daily Dose (MED) Trigger Point,*

The Guidelines will be used to promote educational efforts to decrease negative opioid prescribing patterns. Metrics will be developed to measure opioid prescribing, and the effectiveness of the Guidelines and educational efforts to decrease unnecessary or ineffective opioid prescribing patterns.

and the Committee on Prescriptive Governance endorsed the Guidelines. The Guidelines will be used to promote educational efforts to decrease negative opioid prescribing patterns. Metrics will be developed to measure opioid prescribing, and the effectiveness of the Guidelines and educational efforts to decrease unnecessary or ineffective opioid prescribing patterns.

In addition, the Nursing, Medical, and Pharmacy Boards issued the *Joint Regulatory Statement on the Prescription of Naloxone to High-Risk Individuals* endorsing the prescription of naloxone (Narcan™) to those who are at high-risk for opioid drug overdose. The purpose of the statement is to promote wider utilization of naloxone for high-risk

individuals by educating prescribers on the proper use of naloxone. Naloxone is a medication primarily used to prevent or reverse the effects of opioids, including respiratory depression, sedation and hypotension. When administered during an overdose, naloxone blocks the effects of opioids on the brain to restore effective breathing. Please see www.healthyohiprogram.org/vipp/drug/ProjectDAWN.aspx for additional information.

The Board will continue to work with the administration, legislature, other agencies, licensees and stakeholders in combatting opioid abuse and diversion. •

APRNS:

Do You Know the Content that Must be Included in Your Standard Care Arrangement?

The Board frequently receives questions from APRNs and institutional credentialing bodies about the content that must be included in a standard care arrangement (SCA), and requests for a SCA form or template. The SCA requirements are contained in Chapter 4723-8, Ohio Administrative Code (OAC). Because the nature of the SCAs, a practice-specific, and legally required agreement between the certified nurse midwife, certified nurse practitioner, and clinical nurse specialist (APRN) and their respective collaborating physician(s) or podiatrists, it is not possible for the Board to furnish a template or form for SCAs. SCA content details should be developed jointly between the APRN and the collaborating physician or podiatrist with counsel advice as needed. The Board can provide guidance as to the requirements of the administrative rules, and what must be included in the SCA.

Rule 4723-8-04(B), OAC, requires the APRN to collaborate with a physician or podiatrist whose practice is the same as or similar to the nurse's specialty and enter into a standard care arrangement **before the APRN engages in practice**. The SCA is required to have the signature of the APRN and each collaborating physician, or the signature of one physician if the physician is the designated representative of a group, the date the SCA is executed, the date of the most recent review of the SCA, and the complete name, specialty and practice area, business address, and business telephone

All of these items must be addressed within an APRN's SCA in order for the APRN to be in compliance with the nursing law and rules. The Board does not review or approve APRN SCAs before they are executed, but upon request, the APRN must provide a copy of the SCA to the Board for review.

number or number at which each collaborating physician or podiatrist, and APRN who is party to the SCA may be reached at anytime.

The SCA must address:

- A statement of services offered by the APRN.
- A plan for incorporation of new technology or procedures.
- Quality assurance provisions, including at minimum a schedule for periodic review of the SCA, and criteria that warrants a patient's referral to another health care provider. In the case of a certified nurse midwife, a plan for referral of an obstetrical patient with a fetal breech or face presentation.
- A plan for regular review of referrals made by the APRN to other health care professionals, the care outcomes for a representative sample of all patients

seen by the APRN, and a process for chart review if the APRN's practice includes any direct patient care, patient education, or patient management.

- A policy regarding the APRN's care of infants up to age twelve months, and, if the APRN provides care to pediatrics up to age three, recommendations for when those patients' will be seen by the collaborating physician.
- A plan for coverage of patients in instances of emergency or planned absences by either the APRN, or the collaborating physician or podiatrist.
- A process for resolution of disagreements regarding matters of patient management.
- An arrangement regarding reimbursement under the medical assistance program, i.e., Medicaid.

For APRNs who hold a current, valid

certificate to prescribe (CTP holder), there are additional provisions that must also be included in the SCA. These additional requirements are:

- Provisions to ensure timely direct, personal evaluation of the patient with a collaborating physician or podiatrist, or the physician or podiatrist's designee when indicated.
- Additional prescribing parameters for drugs and therapeutic devices contained in the Formulary including: provisions for the use of FDA approved drugs for indications that are not FDA approved (off-label use); provisions for the use of FDA approved drugs reviewed by the committee on prescriptive governance (CPG) subsequent to the effective date of the SCA; provisions for the use of drugs previously reviewed by the CPG but approved by the FDA for new indications subsequent to the date of the

SCA, and provisions for the use and prescription of any schedule II controlled substance medications.

- A procedure for the CTP holder and the collaborating physician, or a designated member of an institution's quality assurance committee composed of physicians, of the institution, organization, or agency where the nurse has practiced during the period covered by the review, to conduct at least a semiannual periodic review of the following: a representative sample of prescriptions written by the CTP holder, a representative sample of schedule II prescriptions written by the CTP holder, and provisions to ensure that the CTP holder is meeting all of the requirements of Rule 4723-9-12, OAC, the standards and procedures for review of the Ohio automated Rx reporting system (OARRS). All of these items must be addressed

within an APRN's SCA in order for the APRN to be in compliance with the nursing law and rules. The Board does not review or approve SCAs before they are executed. However, Rule 4723-8-04(13) (D), OAC, requires the most current copy of the SCA to be retained and readily available upon request at each site where the APRN is engaged in practice. Upon request of the Board, the APRN must provide a copy of the SCA to the Board.

The Board cannot provide legal services in reviewing/approving the practice-specific language that is included in the SCA, but will answer questions about the SCA requirements. APRNs seeking additional advice beyond the information that the Board can provide about developing a SCA or about specific language to include may wish to contact one of the APRN professional associations, the legal department at the APRN's work setting, or private legal counsel. •

BECKFIELD
COLLEGE

IS PROUD TO ANNOUNCE THAT OUR
**RN TO BSN PROGRAM IS NOW
100% ONLINE!**

Ready to focus on management and new career opportunities afforded with a Bachelor of Science in Nursing? The Institute of Medicine recommends increasing the number of nurses with BSNs.* Don't be left behind!

Beckfield College is proud to include the addition of the RN to BSN online program to its rich nurse education offerings.

Why Beckfield College's RN to BSN Online Program?

- 100% online
- Complete your RN to BSN in as little as 18 months**
- Part or Full-Time Scheduling – time for family, work and school
- Local Cincinnati area on-campus nursing presence with online convenience

Requirements for Consideration into RN to BSN Online Program:

Candidates must have an Associate Degree in Nursing and have a current and unencumbered RN license. This program has specific academic requirements for admission.

BECKFIELD
COLLEGE

FRANKLIN UNIVERSITY NURSING PROGRAM ACHIEVES CCNE ACCREDITATION

Franklin University, a leading educator of working adults, is pleased to announce The Commission on Collegiate Nursing Education (CCNE) has granted accreditation to its Bachelor of Science in Nursing Program (RN to BSN).

Officially recognized by the U.S. Secretary of Education as a national accreditation agency, the Commission on Collegiate Nursing Education (CCNE) is an autonomous accrediting agency, contributing to the improvement of the public's health. CCNE ensures the quality and integrity of baccalaureate, graduate, and residency programs in nursing.

CCNE serves the public interest by assessing and identifying programs that engage in effective educational practices. As a voluntary, self-regulatory process, CCNE accreditation supports and encourages continuing self-assessment by nursing programs and supports continuing growth and improvement of collegiate professional education and post-baccalaureate nurse residency programs.

"Being an accredited program provides current students and future graduates of Franklin University's RN to BSN another competitive edge when looking to further their careers in the nursing field," stated Dr. Gail Baumlein, Chair, Department of Health and Program Chair of the Master of Healthcare Administration Program, Franklin University. "This will be great for our students who

are Registered Nurses and want to pursue their Bachelor's degree at an institution that can provide them with the skills to advance their career."

ABOUT THE FRANKLIN UNIVERSITY RN-BSN PROGRAM

Franklin's B.S. in Nursing (RN-BSN) degree completion program is designed specifically for registered nurses with an associate's degree (ADN) or nursing diploma. The fast-paced RN-BSN Program is comprised of a series of six-week, online courses that fit the busy life and schedule of a registered nurse.

Employers are becoming more selective about their hires. Many are looking to hire, promote, and retain nurses who've earned their BSN. That's why demand for credentialed nurses and nurse leaders is projected to grow at a rate faster than the national average through 2020.

Franklin's rigorous coursework is an efficient way for RNs to build on existing education and experience, providing the expertise needed to advance in the nursing industry. Students gain the skills healthcare providers are actively looking for in the areas of: healthcare leadership and management, clinical decision-making, personalized medicine, community health, health informatics, and healthcare law and ethics.

Franklin's online major prepares students to meet contemporary, on-the-job challenges

using the latest technology-based learning and assessment tools. The RN-BSN major features simulations, gaming, video, audio, and live classroom activities through a convenient online format. For example, students may join in clinical scenarios through a virtual community. Through rich descriptions of community members' lives and relationships, as well as social and health issues, students become immersed in following patients start-to-finish through health issues, using what they learn, just as if there were assessing and planning care in a real clinical situation.

PROGRAM CREDENTIALS

In addition to being accredited by the CCNE, Franklin's RN-BSN Program curriculum reflects The Essentials of Baccalaureate Education for Professional Nursing Practice, as established by The American Association of Colleges of Nursing (AACN). Program curriculum meets other national industry standards and guidelines as well, and is informed by the American Nurses Association (ANA) Code of Ethics, Healthy People 2020, and Quality and Safety in Education of Nurses (QSEN).

This degree program is restricted to students with current RN licenses. Program availability varies by state.

The University is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools.

ADVANCE YOUR CAREER

EARN FRANKLIN'S CCNE-ACCREDITED RN-BSN COMPLETION DEGREE

As the healthcare industry continues to grow, the opportunities for bachelor's-degree-prepared nurses have never been greater. Franklin University's accredited RN-BSN completion program offers you a way to earn your degree with flexible, online courses that work around your schedule.

- Six-week classes
- Multiple start dates
- Completely online coursework
- Transfer-friendly
- Convenient, free application

Start classes this fall. Apply now!

FRANKLIN UNIVERSITY

BOARD REVISES INTERPRETIVE GUIDELINE

“Role of the Registered Nurse in Monitoring Obstetrical Patients Receiving Epidural Infusions”

At the Board’s March 2013 meeting, the Board reviewed and revised the Interpretive Guideline (IG) “Role of the Registered Nurse in Monitoring Obstetrical Patients Receiving Epidural Infusions.” The Board reviews its existing IGs every two years to ensure the IG under review remains relevant to current nursing practices and consistent with nursing law and rules. Prior to the Board’s review, a public announcement of the IGs scheduled to be reviewed is sent via eNews, with an invitation for public input or comment. The IG regarding monitoring obstetrical patients receiving epidural infusions was one of five IGs scheduled for Board review at its March, 2013 meeting. The other four IGs: Guidelines for the Care of Patient’s Receiving Intramuscular, Subdermal, or Subcutaneously Injected Medications for Cosmetic/Aesthetic Treatment; Guidelines for Registered Nurse Performance of a History and Physical Examination for Purposes of Providing Nursing Care; Guidelines for Monitoring and Management of Epidural Infusions (non-obstetrical); and Guidelines for Conservative Sharp Wound Debridement were re-approved without revision.

After review and discussion of the public comments received regarding monitoring obstetrical patients receiving epidural infusions, the Board determined that a revision was necessary to make the IG consistent with the existing Association of Women’s Health, Obstetric and Neonatal Nurses position. The IG was revised by

inserting language that a registered nurse may not decrease the infusion rate of the epidural infusion, and may only stop the continuous infusion after the patient has given birth, or if complications arise and the nurse needs to intervene immediately.

In developing, approving and revising IGs regarding specific nursing activities or procedures, the Board is not creating a new policy. Rather the Board uses IGs to give licensees specific instruction regarding existing law. An IG is not a regulation of the Board, and does not carry the force and effect of law. An IG is adopted by the Board as a guideline to licensees who seek to engage in safe nursing practice.

The revised Interpretive Guideline is provided below:

Guideline for Intrapartum Monitoring of Obstetrical Patients Receiving Epidural Infusions

The registered nurse should not assume care of the epidural infusion of an intrapartum patient until the anesthesia provider who placed the catheter has verified and documented correct catheter placement, the vital signs of the patient and fetus have stabilized, and the infusion has been initiated. Monitoring sedation levels, analgesic effect, and other clinical parameters of patients receiving epidural infusions may be within the scope of registered nursing practice if the following guidelines are observed (section 4723.01 (B) ORC):

- A. With a valid order from an authorized anesthesia provider, the registered nurse may:
 1. Administer and monitor medication infused through an epidural catheter;
 2. Replace a bag or syringe with identical, Pharmacy prepared solution containing the same medication and concentration;
 3. Stop the continuous infusion after the patient has given birth;
 4. Remove the epidural catheter after delivery, if the catheter insertion was documented as uncomplicated and no catheter-related complications have occurred.
- B. In executing a nursing regimen, the registered nurse should:
 1. Monitor the patient’s vital signs, mobility, level of consciousness, and perception of pain;
 2. Monitor the status of the fetus;
 3. Communicate any changes in patient or fetal status to the anesthesia provider as indicated by institutional policy;
 4. Stop the continuous infusion if complications arise and initiate emergent therapeutic measures.

The registered nurse caring for an intrapartum patient receiving an epidural infusion should not:

- prepare solutions for infusion, increase the rate of infusion, inject,

continued on page 12

bolus, or rebolus the epidural infusion, or re-initiate an infusion once it has been stopped;

- remove the following types of epidural catheters:
 - a tunneled epidural catheter;
 - an epidural catheter with exposed metal;
 - a spinal cord stimulator placed in the epidural space; or
- insert or reposition an epidural catheter.

Considerations in Providing Care to Obstetrical Patients Receiving Epidural Infusions: (Rule 4723-4-03 OAC)

1. The registered nurse providing care to obstetrical patients receiving intrapartum epidural infusions should maintain documentation of his/her acquisition of education and demonstrated competency, and other documentation required to ensure that practice is in

compliance with written employer/institutional policies and procedures. A licensed anesthesia provider should be readily available as defined by employer/institutional policy, to manage any complications that might arise when the registered nurse is monitoring or administering intrapartum epidural infusions.

2. The registered nurse's education/training and demonstrated competence should include, but is not limited to, the following:
 - a. Epidural anatomy and physiology;
 - b. Indications, contraindications, and potential complications related to analgesia technique or medications relative to the patient or fetus;
 - c. Pharmacology of analgesia medications administered during the intrapartum period via the epidural route;
 - d. Catheter maintenance and removal;

- e. Utilization of appropriate monitoring modalities, infusion devices, and related equipment;
- f. Patient care responsibilities during intrapartum epidural infusions including, but not limited to: observation and monitoring of sedation levels and other patient/fetal parameters; applicable teaching for patients and family/significant other; and other nursing care responsibilities as defined and approved in the employer/institutional policy.

Accountability and Responsibility of Registered Nurses

Section 4723.01(B) of the Ohio Revised Code (ORC) defines the scope of practice for the registered nurse. Rule 4723-4-03, Ohio Administrative Code (OAC) holds registered nurses responsible for main-

ComPASSION

It's in our blood. It's in our bones.
It's what we're made of.

At Ashland, we prepare exceptionally trained health-care professionals who are instilled with integrity, caring, accountability, respect and excellence. Our students carry these guiding values with them throughout their careers, where they pass on the individual attention they received as students to lives they touch as working professionals.

www.ashland.edu/nursing

Traditional BSN | Accelerated 15-month BSN | RN to BSN | Advanced entry for transfer students

taining and demonstrating current knowledge, skills, abilities, and competence in rendering nursing care within their scope of practice. The registered nurse must apply the Nurse Practice Act (Chapter 4723, ORC) and rules regulating the practice of nursing (Chapters 4723-1 to 4723-27, OAC) to the specific practice setting. Further, the registered nurse must utilize good professional judgment in determining whether or not to engage in a given patient-care related activity, consistent with the law, rules, and guided by the Board's Decision-Making Model, Publication OBN-103. It is critical to note that the law and rules require that the licensee provide nursing care only in circumstances that are consistent with their education, experience, knowledge, and demonstrated competency.

In this statement the Board does not announce a new policy but instead gives licensees specific instructions regarding their obligations under existing law and rules.

Licensees should review the following:

- Section 4723.01(B),
Ohio Revised Code
- Rule 4723-4-03,
Ohio Administrative Code
- Rule 4723-4-06,
Ohio Administrative Code
- Rule 4723-4-07,
Ohio Administrative Code

A complete copy of the Nurse Practice Act and the rules adopted thereunder are available for review and download from the Board of Nursing website: *www.nursing.ohio.gov* in the Law and Rules section.

MEMBERSHIP ON THE OHIO BOARD OF NURSING OR BOARD ADVISORY GROUPS

THE OHIO BOARD OF NURSING

The Ohio Board of Nursing is a regulatory agency established by Ohio law to regulate the practice of nursing in the State. The mission of the Board is to actively safeguard the health of the public through the effective regulation of nursing care. This includes regulation of nursing education programs, and individual licensure, advanced certification, practice and compliance with legal standards. In addition to licensed nursing, the Board regulates dialysis technicians, community health workers, and medication aides.

The Board is composed of 13 members. By law, eight members must be registered nurses, four must be licensed practical nurses, and one member must be a non-nurse representing the interests of consumers of healthcare. To qualify as a licensed nurse member of the Board, an

To qualify as a licensed nurse member of the Board, an individual must be licensed to practice in the State of Ohio, and have been actively engaged in nursing practice for five years immediately preceding the appointment.

individual must be licensed to practice in the State of Ohio, and have been actively engaged in nursing practice for five years immediately preceding the appointment. Members are appointed to serve a four-year term and may be re-appointed to serve an additional term. Members are required by Ohio law to attend a minimum of three-fifths of all regular and special meetings held during a two-year period. Members are compensated for their time

in attending public meetings according to a statutory rate, and receive reimbursement for expenses.

Appointments to the Board are made by the Governor. Information regarding the appointment process, including vacancies and the Boards and Commissions Application, are available on the Governor's website at: www.governor.ohio.gov under the Administration/Boards and Commissions link.

OHIO BOARD OF NURSING ADVISORY GROUPS

The Board maintains a number of Advisory Groups that provide recommendations to the Board on various issues and programs, including:

- Continuing Education
- Dialysis
- Nursing Education
- Committee on Prescriptive Governance

Advisory Groups are similar to "standing committees." They meet several times

a year, or more often as requested by the Board, to provide advice regarding the regulation of on-going Board programs. Advisory Groups are composed of public members, a Board member who serves as the chairperson, and Board staff. Members of Advisory Group members are not compensated for their time, but they receive their actual and necessary expenses incurred in the performance of their official duties. The

Board will appoint members to the 2011 Advisory Groups during the November 2010 Board meeting. For future reference, if you are interested, please visit the Board's website at www.nursing.ohio.gov and click on the link for Board General Information, Advisory Groups. Openings and an Advisory Group member application are posted annually, typically in October, with an application deadline of October 31. •

Online Completion Program

RN-BSN

Keep doing what you love, and take your career to the next level.

You don't have to put your career and personal life on hold to go back to school. With our online RN-BSN completion program, you can continue working as an RN while you earn your BSN online, full-time or part-time. It's a flexible schedule designed for busy nurses like you. Call or visit our website today for details.

Classes begin in October, January, April and July. Financial aid is available for those who qualify.

hondros.edu • (888) HONDROS, ext. 1745

- Accredited by CCNE
- Admission directly into the program
- Personal service every step of the way
- No time limit on transfer credits
- No-cost transcript evaluation prior to enrollment
- Flexible schedules: full-time or part-time

Accreditation and Approvals

College Accreditation: Accredited member, Accrediting Council for Independent Colleges and Schools (ACICS), 750 First Street, NE Suite 980, Washington, DC 20002, (202) 336-6780. RN-BSN Programmatic Accreditation: The online RN-BSN completion program at Hondros College is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791. State Approvals for the College: Ohio Board of Nursing (Practical Nursing and Associate Degree in Nursing programs) and Ohio Board of Regents (RN-BSN program). Registered with State Board of Career Colleges and Schools: Westerville 85-02-0952T. Consumer information available at nursing.hondros.edu/nursingprograms. The Hondros College online RN-BSN program is approved and offered through the Westerville Main Campus, located at 4140 Executive Parkway, Westerville, OH 43081. Hondros College cannot guarantee employment or salary.

Expert Care, Close To Home.

At MedCentral, the largest health system between Cleveland and Columbus, we know that you don't have to live or work in a major metropolitan area to deliver comprehensive nursing care. We're dedicated to making a real difference in the lives of people across the communities we serve — and starting today, we're making a difference in yours.

COMPLIANCE UPDATE ADVANCED PRACTICE REGISTERED NURSES

Section 4723.28 of the Ohio Revised Code (ORC), requires that the Board investigate evidence that appears to show that any person has violated any provision of Chapter 4723 of the Ohio Revised Code, or any rule of the Board in accordance with Chapter 4723 of the Ohio Administrative Code (OAC). When the Board receives a complaint regarding an Advanced Practice Registered Nurse (APRN), an investigation may occur. During the course of the investigation, the APRN may be asked to provide documentation to the Board to determine compliance with certain requirements specific to APRN practice or prescribing provisions. APRNs should be aware of the following requirements, since failure to practice under these provisions may result in disciplinary action, according to Section 4723.28 of the Ohio Revised Code.

- Each practicing APRN is required to participate in a quality assurance process, and is legally required to immediately provide documentation, satisfactory to the Board, of such participation upon request of the Board (Rule 4723-8-05, OAC).
- The most current copy of the standard care arrangement is required to be retained, and be immediately available upon request of the Board, at each site where the practice of the certified nurse-midwife (CNM), certified nurse practitioner (CNP), or clinical nurse specialist (CNS) occurs (Rule 4723-8-04, OAC).
- Annually, each CNM, CNP, and CNS is required to verify the licensure and,

if applicable, board certification status of each collaborating physician or podiatrist with whom there is a standard care arrangement (Rule 4723-8-05, OAC). Verification of the physician or podiatrist licensure and certification status may be obtained from the State Medical Board of Ohio or an employing institution, organization, medical group practice, or agency. The CNM, CNP, or CNS is required to document that such verification was obtained upon request of the Board.

Additionally, each CNM, CNP, or CNS who holds a certificate to prescribe (CTP) or CTP-Externship, may be asked to show proof of registration with the Ohio Automated Rx Reporting System (OARRS), and show, through documentation in the patient's medical record and the standard care arrangement, that he or she is in compliance with the provisions specific to prescribing schedule II and other controlled substances (Rule 4723-9-12, OAC).

Lastly, APRNs should be aware of the Medical Board's Rules on Drug Treatment of Intractable Pain (Rule 4731-21, OAC), as each APRN is required to utilize and incorporate into their practice knowledge of Chapter 4731 of the Ohio Revised Code and the rules adopted under these Chapters that govern the practice of the APRN's collaborating or supervising physician or podiatrist (Rule 4723-8-02, OAC).

A copy of the Medical Board's Rules on Drug Treatment of Intractable Pain is available online at <http://codes.ohio.gov/oac/4731-21>. •

ADVISORY GROUPS AND COMMITTEES

All meetings of the advisory groups begin at 10:00 a.m. (unless otherwise noted) and are held in the Board office. If you wish to attend one of these meetings, please contact the Board office at 614-466-6940 to determine any change in the location, date or times.

RN AND ADVANCED PRACTICE REGISTERED NURSE RENEWAL

This is a final reminder that if you are a RN or advanced practice registered nurse (APRN) in Ohio, your license will lapse after August 31, 2013. A lapsed license is one that was not renewed by the deadline, and thus “expires” without any communication from the licensee or certificate holder. If you do not intend to practice nursing in Ohio, temporarily or permanently, you may notify the Board in writing (including e-mail and fax) that you are requesting that your license be placed on “inactive” status, or check the box on the paper renewal application that requests “inactive” status.

All RNs who were eligible to renew their license, certificate of authority (COA), and certificate to prescribe (CTP) this year, were sent a renewal notice through the mail in May to the address of record with the Board. APRNs were mailed one notice for their RN license and their COA, and an additional notice, if applicable, for a CTP. To reduce the delay between online renewal submission and the online verification of COAs,

APRNs are required to renew their RN, each COA, and CTP, if applicable, separately within the system.

The format for the renewal notice was new this year. Instead of a letter, the Board mailed out perforated sealed envelopes. This included your personal ID, password, and instructions on how to renew your license/certificate online. When renewing online you can pay the required application fee using Master Card or VISA credit cards, or debit cards with a MC or VISA logo. By utilizing the online renewal process, you may be able to verify the renewal of your license/certificate through the Board’s website at www.nursing.ohio.gov in as little as three business days after completing the online renewal application. RNs and APRNs who do not want to renew their license/certificate online must submit a written request for a paper renewal application by e-mail at renewal@nursing.ohio.gov, fax at (614) 466-0388, or by mailing the request to the Board. Telephone requests will not be accepted.

Renewal fees are as follows:

July 1, 2013 through August 31, 2013
(includes late processing fee)

RN - \$115

APRN – each COA - \$135

CTP - \$50

After August 31, 2013 – you must request a reinstatement packet

The Board audits nurses each year to determine compliance with continuing education (CE) requirements. If you were notified of an audit of your CE for the period of September 1, 2009 through August 31, 2011 and have not submitted the information required by the Board, you will not be eligible to renew for 2013-2015 until you complete the audit requirements.

Board staff are available to assist you in taking the necessary steps to renew your license/certificate. If you have questions about the renewal process, please contact the Board at (614) 995-5420 or by e-mail at renewal@nursing.ohio.gov, or if you are an APRN, please contact the Board at 995-3680 or 466-6180, or by e-mail at aprn@nursing.ohio.gov. •

NAME/ADDRESS CHANGES

How do I change my name with the Board?

You must submit a certified document of a name change (i.e. marriage certificate/abstract, divorce decree/dissolution, name change document) **within thirty days of the change**. Certified documents can be obtained from the court where the original record was filed. Photocopies or notarized copies are **not**

acceptable for a name change. Submit your certified document with a “Name/Address Change Form” or with a brief letter which includes your Ohio license/certificate number, your previous name, your new name as you want it to appear on Board records, your current address, county and telephone number. A Name/Address Change Form is available on the Board’s website at www.nursing.ohio.gov.

at the “Change Your Name/Address” link. Any name change documents must be mailed to the Board. The Board will return your certified document. There is no fee for a name change.

How do I change my address with the Board?

Address changes must be submitted in writing **within thirty days of the**

change. Submit your address change with a “Name/Address Change Form” or with a brief letter, which includes your name, Ohio license/certificate number, address, county and telephone number. A Name/Address Change Form is available on the Board’s website at www.nursing.ohio.gov at the “Change Your Name/Address” link. If you wish to verify that your address has been changed, call the Board at (614) 466-3947 for verbal verification. There is no fee for an address change.

Please submit the information to the attention of the appropriate department:

ADVANCED PRACTICE REGISTERED NURSE NATIONAL RECERTIFICATION

If you are an advanced practice registered nurse,* your certificate of authority (COA) is current and valid only if you meet all requirements of the Board, which includes maintaining certification by the applicable national certifying organization (please refer to the Board’s website at www.nursing.ohio.gov for a list of Board approved national organizations). The Board requires primary source verification for advanced

practice registered nurse national recertification. For this to occur, you must request that your national certifying organization notify the Board directly of national recertification within thirty days of your recertification. The Board will not accept documentation of recertification from a COA holder.

**An exception to this requirement applies to CNS certified by the Board on or before December 31, 2000. •*

OHIO AUTOMATED RX REPORTING SYSTEM (OARRS)

APRNs are reminded that Board Rule 4723-9-12, Ohio Administrative Code, sets forth certain situations which require review of OARRS prior to prescribing or personally furnishing

a controlled substance or tramadol to a patient. For information regarding OARRS, access the following link <https://www.ohiopmp.gov/portal/Brochure.pdf>. •

WRIGHT STATE UNIVERSITY

Creating Nursing-Driven Solutions to Meet Community Identified Needs

The Nursing Institute, an arm of the Wright State University – Miami Valley College of Nursing and Health, delivers customized training solutions for the healthcare workforce. Driven by a model of shared value, we partner with healthcare agencies, educational institutions, the military, and private businesses, to create nursing-driven solutions that meet customer-identified needs. As part of Wright State University, the Institute is able to utilize the considerable expertise of over 40 nursing faculty with unique areas of specialization as well as a host of experts from many other disciplines (e.g. business planning, human factors, organizational efficiency, customer satisfaction, etc.) Our current offerings have demonstrated effectiveness in Home Care

Presentation of Pneumonia in the Elderly program with a Long Term Care Center (Bethany Village, a Lutheran Graceworks facility in Centerville, Ohio)

and Long-Term Care settings, including **Early Recognition of Congestive Heart Failure, Presentation of Pneumonia in the Elderly, Review of Heart and Lung Sounds and Leadership Skills for the Nurse Aide in the Long-Term Care Setting.** The Institute is also offering the Ohio

Department of Health Nurse Aide Training and Competency Evaluation Program. The program is 107.5 hours of classroom/laboratory and clinical training; more hours of hands on practice and application than most programs offer. The goal is for the caregiver to be confident in providing safe, quality patient care.

The Nursing Institute is ready to create tailored training and education to help your organization achieve its desired outcomes. For more information, please contact Harriet Knowles, R.N., MSN, Director of the Nursing Institute at 937-775-2519 (harriet.knowles@wright.edu) or Diana Lewis, Administrative Assistant of the Nursing Institute at 937-775-3940 (diana.lewis@wright.edu).

BOARD DISCIPLINARY ACTIONS

- **Permanent Revocation** = Prohibited from ever practicing nursing or dialysis care, or working as a certified community health worker or certified medication aide.
- **Indefinite Suspension** = Indefinitely prohibited from practicing for a specified minimum period of time. The Board will reinstate only if all conditions for reinstatement, set at the time the action was taken, are met.
- **Automatic Suspension** = Suspension for a violation of a consent agreement or Board order or suspension required by law for commission of a specified felony.
- **Immediate Suspension** = Suspension required by law for a felony drug abuse offense.
- **Indefinite suspension with a stay** = On “probation.” May practice if the license status is active but will be monitored by the Board under conditions and restrictions.
- **Restrictions** = Limits such as prohibition from passing narcotics or working in certain areas of practice.
- **Reprimand** = Least amount of discipline. Acknowledgment that what the nurse, dialysis technician or community health worker did was wrong. Does not prohibit practice.
- **Voluntary surrender** = May not ever practice again. Permanent action following a formal agreement by the nurse, dialysis technician, medication aide or community health worker to give up the license or certificate.
- **Fines** = A fine of up to \$500 imposed for each violation.

Below are the Board’s actions taken during the last Board meeting. The actions are an accurate representation of information maintained by Ohio Board of Nursing at the time of posting. Because the name of a licensee may be the same as another, please do not assume from the name alone that a particular individual has had disciplinary action. Employers and potential employers should also verify the license status on the Board’s Web site at www.nursing.ohio.gov. If you have any questions regarding these disciplinary actions, please contact the Compliance Unit at 614-466-8500.

fastfingerprints

a National Background Check, Inc. company

find out more:

www.fastfingerprints.com

614.457.8900 or 1.877.932.2435

- Mobile units for BCI/FBI fingerprint background checks and/or oral drug testing
- Live scan fingerprint cards
- FBI background checks (adoption, immigration, student visas, living/working abroad)
- Florida Department of Law Enforcement approved Level 2 Live Scan Vendor

Get printed once... and be done.

Storing fingerprints is a great benefit when individuals are going to need to submit fingerprints in the future. For a small one-time fee, fingerprints are stored in our secure electronic vault. Fill out and return a simple form, and we will resubmit your fingerprints to the state for a new background check to be processed. The standard service fee is incurred at the time of transmission. Storing your fingerprints saves you valuable time and gas!

The Resources You Need for Your Nursing Career:

Teach. Lead. Transform.

Nurse Educator Graduate Certificate Program

This online program provides essential knowledge and skills in teaching and learning, program development, assessment, evaluation and other aspects of the educational process in nursing. Those who wish to pursue educator roles or are interested in taking the National League for Nursing examination for Certification as a Nurse Educator (CNE) can pursue this certificate after earning their BSN.

Nurse Faculty Loan Program

UC is proud to offer the Nurse Faculty Loan Program (NFLP) funded by the Health Resources and Services Administration (HRSA). These loans are available to eligible students enrolled in a master's or doctoral nursing program who intend to secure full-time employment as nurse educators upon graduation. Following graduation up to 85% of the loan will be canceled in exchange for service as a full-time nursing faculty.

New Program Offerings

Psychiatric Mental Health NP Post-Master's Certificate

This new online program addresses a need for integrated (medical and psychiatric) care of underserved individuals with severe mental illnesses. We aim to prepare nurses who already have master's degrees in primary and acute care specialties to add advanced psychiatric skills to their scopes of practice.

Accepting students for Spring 2014.

Neonatal Nurse Practitioner MSN Program

This recently added master's specialty prepares graduates for the challenges of managing complex disease processes in the newborn population. Graduates are also eligible to sit for the Neonatal Nurse Practitioner Certification exam offered through the National Certification Corporation.

Accepting students for Spring 2014.

Program Offerings:

- RN to BSN Online
- Traditional BSN
- Accelerated Program
- Graduate Certificate in Nursing Education
- Master of Science in Nursing (with on campus, online & hybrid options)
- Post-Master's Certificate
- Doctor of Nursing Practice Online
- PhD in Nursing

Just want to take a course or two? Check out our open courses available to non-majors.
